- UK Government level security accredited. ITHC, ISO27001, Cyber Essentials

REDUCES TIME TO HIRE
BY 50%

Conflab Recruit is an intelligent decision support platform enabling you to streamline and optimize the recruitment process. Talent acquisition can be time-consuming and methodical, but with Conflab Recruit you can short-circuit some of those tedious processes.

Automatically schedule, remind and record one and two-way audio and video applications and interviews. Share with the team and ensure all the right documentations is readily available and attached to the right candidate.

Time is money

Reduce wasted time on 1:1 interviews by applying business processes and workflows to the step by step process of interviewing and screening candidates. Conflab Recruit brings order and intelligence to recruiting as you only connect with those who are genuinely qualified for the role.

Features Include:

- Dedicated Interview Booking System
- Interview Waiting Room
- One-Way Interviews
- Multi-Participant Interviews
- Structured Telephony Interviews
- All Interviews, video and telephone, are recorded and securely shared for better assessment & future audit
- Automated Workflows & Messaging
- Rating & Commenting System

Users can invite applicants to an online video interview where pre-defined questions are set and timed with a countdown displayed. Applicants can be asked questions and the answers recorded into a webcam. Alerts are sent to stakeholders to assess and review so it is easier and faster to deal with mass applications across the team; all cutting down on the number of unnecessary interviews

Face to face interviews are
no longer on the table...

Using technology to increase efficiency

Spending endless hours interviewing unsuitable candidates can be a thing of the past as you can screen pre-recorded applications, alongside the appropriate documentation and make quick, informed decisions. Conflab Recruit enables you to connect and interview more quickly and efficiently, using the range of audio and video tools, with scheduling, booking, managing and messaging all taken care of. Our Client's reduce their time to hire and recruitment costs by more than 50%.

Secure, Sharing & Sophisticated

Conflab Recruit enables you to plan, schedule and record interviews, then share with colleagues and report on increased productivity. Hiring talent for your business made easier and more efficient.
